

JUST
BRING IT

GO MOBILE

The REVO REMOTE system allows you to bring the full control of your Power Pack wherever your worksite are. It can be inside a closed area, a nuclear power plant or just if there is a long distance between the robot and the Power Pack.

The REVO REMOTE is a complete mirror of the control panel on the Power Pack which means that start/stop, alarms, pressure, rpm, temperatures and everything else is accessed right where you are.

FULL CONTROL

The Power Pack can be locked off and will take care of itself and

does not need any extra attention. REVO REMOTE plugs right into the remote control outlet on the Power Pack and it has both the possibility to control the pressure ON/OFF directly from the box or to use any remote, pedal or radio receiver.

// TECHNICAL DATA EVOLUTION

Weight	4,9 kg (11 lb)
Length	280mm (11,0 in)
Width	192mm (7,6 in)
Height	138mm (5,4 in)
Protection rating	IP65
Mounting	Magnetic
Built in functions	Stop, Pressure ON/OFF
Compatible remotes	Aquajet, Hammelmann, Woma, Wireless

// COMPATIBLE PRODUCTS

- Power Pack
- Power Pack Ecosilence®
- Power Pack skid
